**Team Members:** Matthew Daxner, Sanjay Shrikanth, Griffen Shu, Arka Pal, Dhatchi Govindarajan

## Release Plan

**Product Name:** *WaveStyled*

**Team Name:**

**Release Name:** Version 1.0

**Release Date:** June X, 2022

**Revision Number:** 1

**Revision Date:** April 11, 2022

## High Level Goals

1. Be able to take input from user and add clothing item to the wardrobe **PRIORITY 1**
2. Be able to remember a user's wardrobe **PRIORITY 2**
3. Be able to recommend outfits based on user wardrobe, weather & occasion **PRIORITY 3**
4. Easy-to-use UI so entering information is efficient and appealing **PRIORITY 4**
5. Be able to learn a user's preferences and apply to the recommendation **PRIORITY 5**

## User Stories for Release

### **SPRINT 1**

- ☐ **(Story Points: 8)** As a user I want to be able to add items from my actual wardrobe to my virtual wardrobe so that I can easily visualize everything I own. **(Priority: 1)**
- ☐ **(Story Points: 5)** As a user, I want my wardrobe to be saved when I close the app so that I do not need to re-enter it whenever I reboot the app. **(Priority: 2)**

### **SPRINT 2**

- ☐ **(Story Points: 8)** As a user I want to see my recommended fits so that I can easily choose(or not) my outfit for the specified weather occasion. **(Priority: 3)**
- ☐ **(Story Points: 13)** As a user I want a well-designed user-interface so that I can easily navigate through my wardrobe, recommendations, and previously-chosen outfits **(Priority: 2)**

### **SPRINT 3**

- ☐ **(Story Points: 21)** As a user I want to be able to calibrate the recommendation model so that it gives me outfits that fit my preference and learns what I like to wear for future recommendations. **(Priority: 1)**

### **SPRINT 4**

- ☐ **(Story Points: 8)** As a user I want to be able to submit a picture of my clothing item so that when I receive a recommendation, I can easily identify which piece of clothing it is referred to and clearly visualize my outfit right on my phone screen. **(Priority: 1)**

- ☐ **(Story Points: 13)** As a fashion designer, I want to be able to have multiple tuned-wardrobes so that I can have different recommendations for different sets of clothes **(Priority: 2)**

## Backlog

### High level Goals

1. Be able to support multiple users
2. Be able to extract features of a clothing item using Computer Vision

### User Stories for Release

1. As a user I want to be able to be part of a community so that I can see what others are wearing
2. As a user I want to be able to add items to my wardrobe quickly using emerging technologies so that I don't need to waste too much time inputting my wardrobe
